#### **Psychology Donation Statement**

##### **Comments, Questions and Concerns Raised During Review of Statement:**

- This statement is directed toward the Dean and possibly head of departments. Will not be published to the public.
- Need approval from the Psychology Department before sending the statement. GSA does not want to alienate the department by releasing statement and not knowing what others funds couldn't be provided.
- Authors put IRB in the document because they felt it was important in explaining why having the computer equipment is so important for Psych research and that this basic infrastructure should be provided by the University.
- GSA should keep this statement for records even if it is not released.

If you have any suggestions for the statement please email Ashlie Wrenne (32wrenne@cardinalmail.cua.edu) and/or Michelle Roth (rothmica@gmail.com).
